Profile

As a passionate and results-driven Software Developer with 3 years of experience, I bring a robust combination of technical proficiency and creative problem-solving to every project. My expertise is crafting responsive, user-centric web applications using modern technologies such as HTML5, CSS3, JavaScript, and popular frameworks like React and Node.js.

Professional Experience

Software Developer

At Xpertech Solution Group, I collaborate with cross-functional teams to design, develop, and deploy dynamic web and mobile applications using technologies like React, PHP (Laravel), Django, and WordPress. My role involves writing clean, efficient code, troubleshooting systems, integrating third-party solutions, and creating technical documentation to ensure seamless project delivery. Leveraging skills in JavaScript, MySQL, and Git, I contribute to innovative, user-focused solutions while adapting to open-source tools and agile workflows to drive client success.

02/2025

egbeda, Lagos,
Nigeria

Front end Developer, Touch And Pay Technologies

- During my frontend internship at **Touch and Pay Technologies**, I designed, developed, and optimized user interfaces for their mobile payment platform, leveraging **React** and **JavaScript** to deliver intuitive, responsive experiences. I collaborated closely with senior developers to integrate new features, prioritizing cross-browser compatibility and performance optimization.

09/2023 – 02/2024

Lagos, Nigeria

Freelance Web developer, Muritadoh Sodeeq

- As a Freelance Web Developer** collaborating with software engineer **Muritadoh Sodeeq**, I engineered dynamic, responsive websites using **HTML/CSS** and **JavaScript**, meticulously tailored to client specifications. Partnering closely with Muritadoh, I integrated interactive frontend functionalities and streamlined user experiences, prioritizing performance optimization and usability standards to enhance site speed and accessibility.
